Werribee River Fishing Access Improvements Workshop

Do you fish the Werribee River?

Come along to the recreational fisher workshop to help shape improved fishing access and opportunities on the Werribee River.

Which sections of the river need platforms, better paths, canoelaunching and other infrastructure? Could new fish habitat make our fishing spots even better?

Have your say on your fishing future and discuss these ideas and priorities with land and waterway managers on the night!

Date
Wednesday 15th August
